

OCEAN PRO 750 / 850 *Leisure Series*

OCEAN PRO 750 / 850 *Leisure Series*

Humber best seller

From leisure to commercial, a rib to suit all needs. With various lengths and beam sizes available, this is a rib to cater for all your requirements. They're a best seller for a reason, there's probably not a more reliable rib on the market.

Adaptability

There aren't many things that this rib cannot do! The Ocean Pro is one of the most adaptable boats on the market with its uses ranging from dive exploration, family trips and commercial practices including police and anti-terrorism use!

Tried and Trusted

The Ocean Pro series has been tested by everyone from Dive magazine to Powerboat and Rib magazine and has always come with glowing reports. There's a reason that this is a Humber favourite.

A rib to suit you

The range of options available for the Ocean Pro series allows you to create a rib to cater for your needs. With a number of size and beam options available, this allows a larger selection of seating and console arrangements, and why not kit it out with all the electronics you need, whether that be a bottle rack, iPod sound system or commercial electronic gear.

Unique hull

The unique hull is based on the formerly known Humber Attaque which was our first hull design and is seen as one of the best if not the best hull in the rib world with its ultra-high performance levels. The Humber Attaque was the first rib to cross the Atlantic both ways in separate trips. Well, if it isn't broken then why fix it!

Size range

The Ocean Pro range has our widest selection of sizes. With lengths ranging from 5-9m and beam options ranging from 2-2.8m, you're spoilt for choice!

A boat for all experience ranges

The quality of the boat will make up for any mistake made by the driver. Easy to navigate and control, it doesn't matter if you're a newbie or a seasoned veteran of the sea, you'll have just as much fun!

Test Drive and Advice

Contact your local Humber dealer for more information and/or arrange a test drive. We want to make you feel at ease and want you to see that we can walk the walk! Start your Ocean Pro adventure here.

OCEAN PRO 750 / 850 *Leisure Series*

Every single one of our Ocean Pro series is built with our high performance unique deep 'V' hull design. Giving the smoothest and driest of rides this allows you to glide through even the roughest of seas, and you'll still be guaranteed the comfiest of outings. A solid British built boat designed to be pushed to the limits, the Ocean Pro will promise you all the fun that you could ever wish for. The essential rib for all family and leisure users.

Ideal for those looking for more space and a larger layout, these craft are capable of traveling faster, further and in more comfort than other comparable craft available on the market.

Whilst sharing the hull characteristics of the Ocean Pro 2.6m series, the wider body version offers additional deck area giving the luxury of a spacious and open deck with ample seating options to accommodate the family.
